1	(OCEO) Palmatis Innovations LLP	OCEO has built a first of its kind smart water purifier that gives you healthy water right in your home without having to purchase the device or pay for a maintenance fee. Now you only pay for the water purified from the machine.	WASH	Water	2016	Bengaluru		https://www.oceowateronline/oceo/website/index	india@oceowater.com	96119 10111
2	1bridge	1Bridge is an assisted purchase platform catering to rural customers. Offers a platform enabling rural customers to order products online. The company provides assistance through kiosks installed in partnered retail stores. Agents from the stores help rural customers to browse, choose and order from major e-commerce marketplaces using the tech-enabled platform provided by the company. Claims to have partnered with Amazon and some local suppliers. Customers can then collect their ordered goods from the same shop post delivery. 608	Yuktix	Yuktix provides solutions to view and control remote devices deployed over a large area through its sensors and devices. Yuktix cloud aids to collect and analyze data from a large number of devices deployed in field. Yuktix data logger is an electronic device that records data over time with inbuilt sensors or via external instruments which can be stored on a secure digital card or sent immediately over the network to a central server. It can send commands to remote devices via SMS, Ethernet, WiFi or GPS. The commands are delivered as a barcode dictionary making it user friendly to add new commands. Its remote monitoring finds applications in vendor inventory management, food quality monitoring, agricultural management and industrial equipment monitoring.
